SUMMARY

Frontend Developer with 2 years of tenure at Mahindra and Mahindra Ltd (MIBS).
Expertise in developing expandable web applications using Nextjs and Reactjs.
Committed to providing high-quality code and consistently looking for chances to
expand and improve my skills. Proficient in handling code commits on AWS and task
management in Azure DevOps.

PROFESSIONAL EXPERIENCE

MAHINDRA AND MAHINDRA | FRONT END DEVELOPER

December 2022 | Kandivali (E), Mumbai

Duration - Present

- Handled a frontend codebase constructed with Next.js and developed reusable UI elements using Tailwind CSS or SCSS to enhance development productivity.
- Implemented Agile development of key projects and consulted with client developers to optimize application delivery.
- Implemented real-time data fetching from APIs and in UI using Salesforce Lightning Web Components (LWC) in Salesforce.
- Implemented Sanity as a headless CMS backend for multiple projects. Gained experience with Sanity for use as a CMS in enterprise environments.

AJACKUS | SOFTWARE DEVELOPER INTERNS

September 2022 - November 2022 | Maharashtra, Mumbai

Duration - 2 Months Internship

- Managed frontend development using NextJS and Tailwind CSS.
- Created reusable UI components to optimize code and improve web app performance.
- Developed custom UI components to match product design system specifications.
- Implemented UI with NextJS and Tailwind CSS following reusable components architecture.

PROJECTS

AI CONTENT GENERATOR | AI SASS WEB

Checkout Live Projects:// [AI Sass Web](#)

- Developed a SaaS platform using Next.js, with a serverless architecture powered by Neon database and a modern UI built with Shadcn/UI.
- Integrated Razorpay for seamless payment processing to enhance user experience.

WISHBIN | E-COMMERCE SITE

Checkout Live Projects:// [WishBin-Store](#)

- Built online store with Next.js, Sanity CMS, Stripe. Handles product listings, checkout, payments. Includes routing and server-side rendering (SSR).
- Payment gateway Integrated Stripe API for secure credit card transactions.
- Sanity headless CMS. Created schemas and queries to manage data.

PVR-APP | MOVIE APP

Checkout Live Projects:// [PVR-App](#)

- Mobile app for PVR Cinemas built with React Native and Expo.
- Lets users browse and book movie tickets for their location.
- Key Technologies: React Native, Expo, CSS, JavaScript.
